Coachmen Camping Trailer Warranties

- Coachmen utilizes a fully enclosed lifter system. The entire system is mounted above the floor away from road grime, corrosive salt and all elements of the weather. It is easily accessible and carries a limited **lifetime warranty**.
- For 1993, Coachmen is using an all vinyl tent on all models. The vinyl will not rot or shrink, is impermeable to water and is easily cleaned with soap and water. The tent is sectionalized into 5 pieces for easy repair or replacement. Coachmen further protects the tent with a **5 year limited warranty**.
- A torsion suspension allows for independent movement of the wheels allowing for a steadier trailer ride and more control on rough surfaces. The suspension is protected by a **5 year limited warranty**.
- Coachmen camping trailers have floors and beds made of solid Weyerhaeuser one-piece structurwood®. Structurwood® is the premier material used in the finest manufactured homes. It has a seamless construction and is made with a tough marine grade phenolic adhesive that fiercely resists moisture. Structurwood® has all the strength of plywood yet it is a stiffer panel that lies flatter. Structurwood® is protected by a **10 year limited warranty**.
- **All additional component parts are warrantied by Coachmen RV Company for a period of 12 months after delivery to the original purchaser. Please contact your dealer for a complete copy of Coachmen warranties.**

The Coachmen recreational vehicles described in this brochure incorporate components produced by Coachmen Industries, its divisions, and various other suppliers. During the product year, it may become necessary to produce Coachmen products with different components than initially scheduled. All such changes are approved for use by Coachmen in order to maintain the quality standards associated with the Coachmen name. All illustrations and specifications contained in this catalog are based on the latest product information at time of publication. Coachmen reserves the right to make changes in prices, colors, materials, equipment, and specifications and to discontinue models at any time without notice. Coachmen assumes no responsibility for any error in type or print reproduction of specifications in this brochure. Check with your Coachmen dealer for more information if you have specific questions.

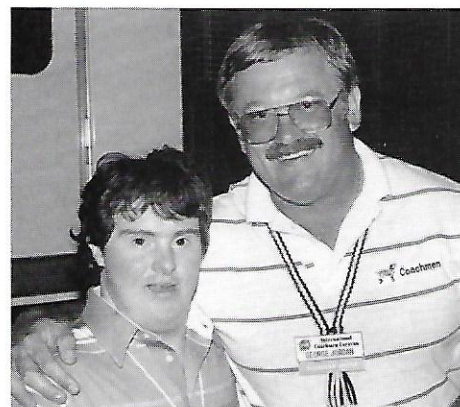

Coachmen's commitment to giving the most for your money does not stop with your purchase . . . it goes on and on.

Friends and Fellowship

One of the nicest joys of RV ownership is to share good times with good people. To enhance your ownership experience, we offer you a free, one-year membership in the International Coachmen Caravan Club, with the purchase of any new Coachmen brand recreational vehicle.

In addition to an automatic expansion of your circle of friends, your Caravan membership brings you lots of other benefits, like: ■ A 10% discount at over 2,500 participating campgrounds in the United States and Canada

- Free \$5,000 Accidental Death & Dismemberment Insurance Policy
- Free trip planning services
- Free Lost Key Return Service, and
- Free Campground Directory and membership magazines.

Other benefits that are yours at an optional low cost include: ■ Frequent special interest trips and tours ■ Rallies ■ Emergency Road Service Program ■ Long-term Health Care Insurance policy, and ■ Eligibility for our own Coachmen Caravan Master Card.

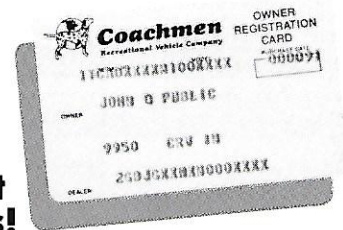

The list of benefits from your free membership in the Coachmen Caravan is very long. But, the most important benefit is the enjoyment you find in shared memories with friends and family. This benefit is uniquely yours from Coachmen.

RVIA Seal of Approval

All Coachmen recreational vehicles bear the Recreational Vehicle Industry Association Seal which certifies compliance with national health and safety rules.

You Can Count On Us!

With Coachmen, you get a company and warranty you can count on. Since the early days of our history, over twenty-eight years ago, we've believed in our products and our customers. That's why we were one of the first companies to offer a warranty. Our famous **Buckstopper Warranty** policy insures you that we stand behind all of our products with pride.

New for 1993 models, we are very pleased to provide you with an **Extended Limited Structural Warranty**, for peace of mind regarding the floor, ceiling assembly and laminated structural components. Please ask your Coachmen dealer for complete details on our generous warranty programs.

The Coachmen **Owner's Registration Card** is your passport to worry-free travel. No matter where you visit throughout the United States and Canada, our network of independent dealers stand ready to provide you with courteous, dependable service.

Coachmen also gives you enhanced resale value, because the **Buckstopper Warranty** may be **transferred** to a **subsequent owner** for a small registration fee. (Sorry, the Extended Limited Structural Warranty may not be transferred.)

As you've read throughout this brochure, we work very hard to see that our products perform to your satisfaction. But should something go wrong with our workmanship or materials during the warranty period, we will fix it.

When making your investment in a recreational vehicle, you should select a company you can count on, with a warranty you can depend upon. We invite you to compare ours to the competition.

We are confident that Nobody does it better!!

Get the most for your money. Choose Coachmen.

Coachmen Adds Value

When selecting a recreational vehicle, you are making an investment. Coachmen works for your investment, and is by far the best value you will find.

That's because we design our products for your long-term satisfaction and enjoyment. Other brands cut corners in areas that are hidden from you... until after the purchase.

Coachmen doesn't cut corners. We add performance and safety features that aren't always easy to see, but are very easy to appreciate down the road.

Coachmen cares about your total cost of ownership, and so do you. Cost of ownership includes the initial purchase price, plus a whole lot more. It's the value of quality, product performance, safety, ease of maintenance, resale value, a company and warranty you can count on, and even camping fellowship.

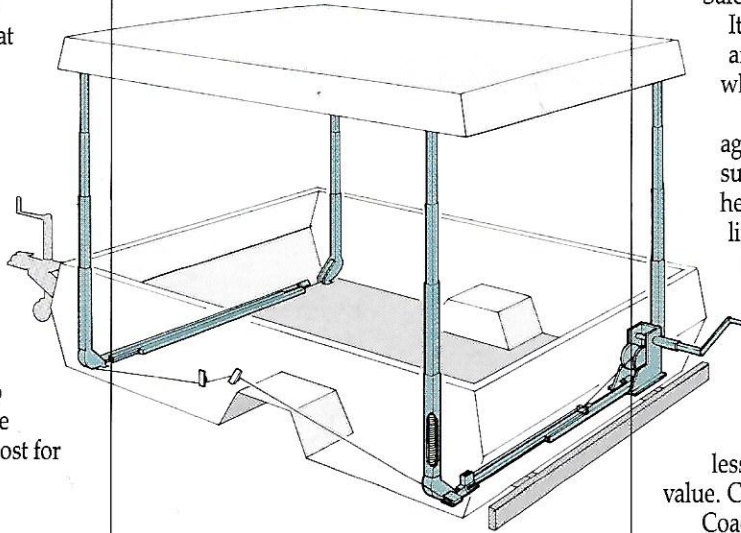

Coachmen pays careful attention to each of these factors. Here are just some of the ways Coachmen gives you the most for your money, today and tomorrow.

Beautiful Livability

Coachmen uses only high-grade, stain-repellent upholstery fabrics for all seating. Our fabrics must pass the quality standards set for fine home furnishings, and satisfy automated durability testing to satisfy our requirements.

Our velvets are woven on jacquard looms, so the color and pattern are integrated into the fabric. Other brands use a mock "velvet" which really are filaments glued to a backing, then printed to achieve color and/or pattern. This flocking technique, much like flocked wallpaper, tends to rub off on your hands and clothing in a short period of time.

Seating comfort and durability also largely depends on the seating construction itself. Though much less expensive foam is available, we specify a heavy foam density, to assure that your furniture and cushions don't rapidly compress or disintegrate. Other competitive brands often cut costs in this hidden area.

Product Performance

You want your recreational vehicle to perform with reliability. Coachmen takes pains to see that our products do just that.

Coachmen employs a fully enclosed lift system mounted above the floor for protection and easy accessibility. It carries a limited life-time warranty. Coachmen camping trailers also feature floors and beds made of one-piece Structurwood®. Structurwood® has the strength of plywood, plus it's seamless and carries a 10 year limited warranty.

Appliances are also important to product performance. Coachmen uses only name brand appliances, which means both reliability and availability of warranty and replacement parts in the future. And, we take extra steps to ensure that the appliance performs satisfactorily.

Safety Is First

Safety is taken very seriously at Coachmen. It is something we will not compromise, and we build safety into our products, whether or not you can see those features.

Take the L.P. system. To protect against dangerous corrosion and resulting leaks, every Coachmen unit uses heavy-duty copper tubing for our gas lines. Many other brands use inexpensive black pipe. To ensure the tightest seal at fittings, we give our copper tubing a *double flare* at each joint.

Designed For Durability

Durability means fewer problems, less maintenance and a better trade-in value. Coachmen takes extra care in this area.

Coachmen protects against water leaks by utilizing a crowned one-piece roof. The crown promotes water run-off thereby eliminating standing water, a common cause of leaks.

These are just a few of the reasons why Coachmen gives you the most for your money.

In addition to these design elements, please see page 5 for a description of our Coachmen Caravan Club and Buck-Stopper Warranty.

We and your dealer welcome the opportunity to tell you more about the wonderful value of products by Coachmen Recreational Vehicle Company.
