Model 3556P with Ceiling Fan and Home Entertainment Center Options

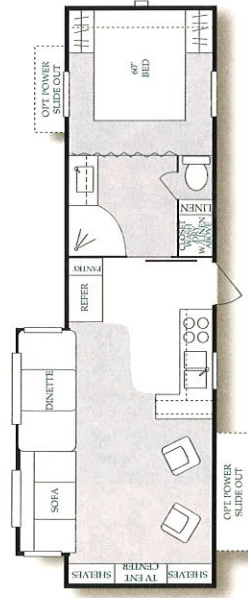

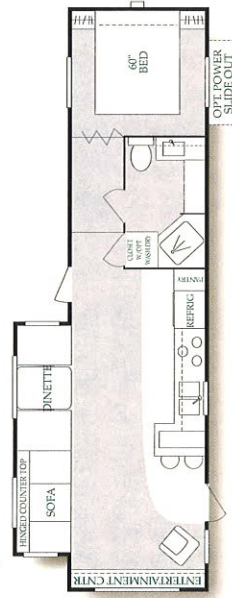

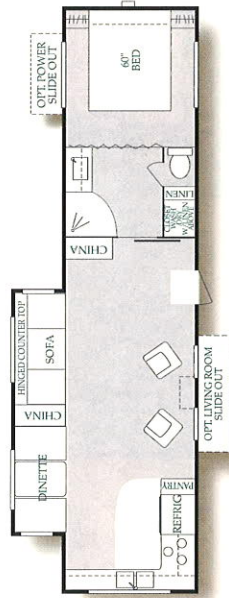

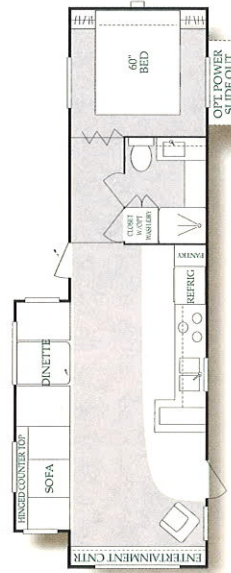

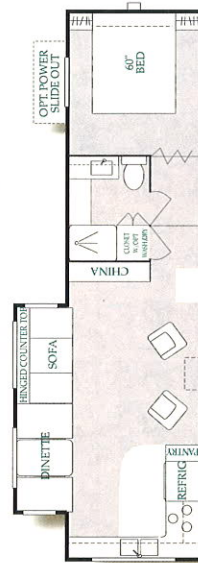

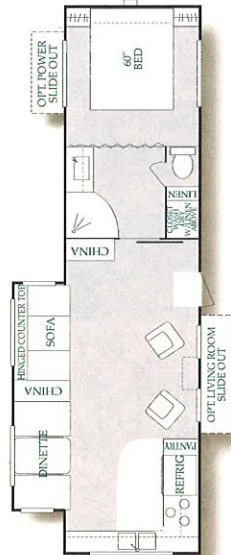

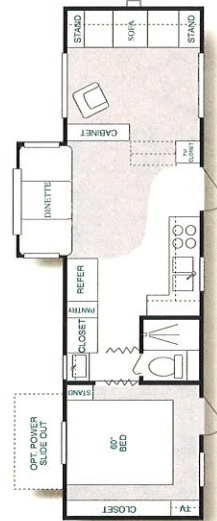

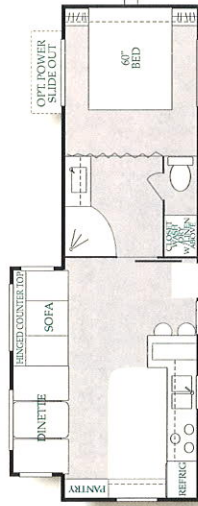

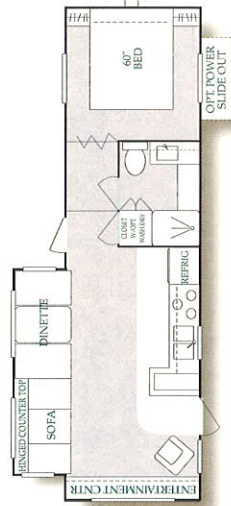

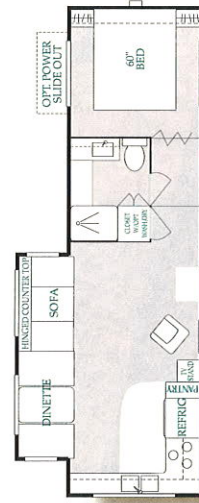

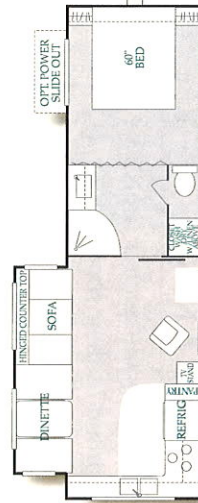

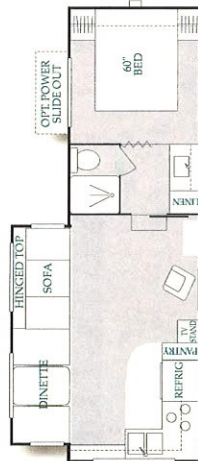

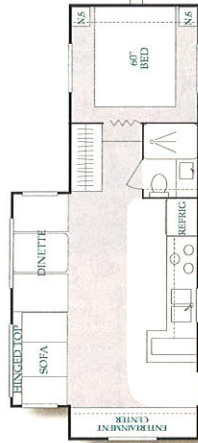

Standard 1-piece fiberglass shower with shower door and optional skylight

Relax
in the comfort of *New Vision* style.

Optional bedroom power slide out

1 9 9 7 F E A T U R E D O P T I O N S

The diagram illustrates five optional configurations for the 1997 model, labeled as Option 1 through Option 5. Each option shows a different arrangement of beds and storage within the unit's footprint.

- OPTION 1: OPTIONAL TWIN BEDS** - Shows two twin beds, each measuring 32" x 75".
- OPTION 2: OPTIONAL TWIN BEDS AND HIDE-A-BED** - Shows one twin bed (32" x 75") and one hide-a-bed unit.
- OPTION 3: OPTIONAL TWIN BEDS AND 60" BED** - Shows one twin bed (32" x 75") and one 60" bed.
- OPTION 4: OPTIONAL TWIN BEDS AND HIDE-A-BED** - Shows one twin bed (32" x 75") and one hide-a-bed unit.
- OPTION 5: OPTIONAL TWIN BEDS AND 60" BED** - Shows one twin bed (32" x 75") and one 60" bed.

Note: Not all options are available on each unit. See available option list beside each model floorplan number.

MP – Medium Profile SU – Stand Up Bedroom

K-Z, Inc. reserves the right to cancel or alter available options. Features available on early 1997 models may vary.

From Start to Finish

DESIGNED WITH YOUR EASE IN FOCUS

TWO YEAR STRUCTURAL WARRANTY

Every manufacturer should be proud of their product. We are. As a matter of fact, we believe in our construction techniques strongly enough to offer you our Two Year Structural Warranty.

JAKE PLATE™

This one piece Jake Plate™ axle support provides nearly double the strength of spring hangers, with truer tracking.

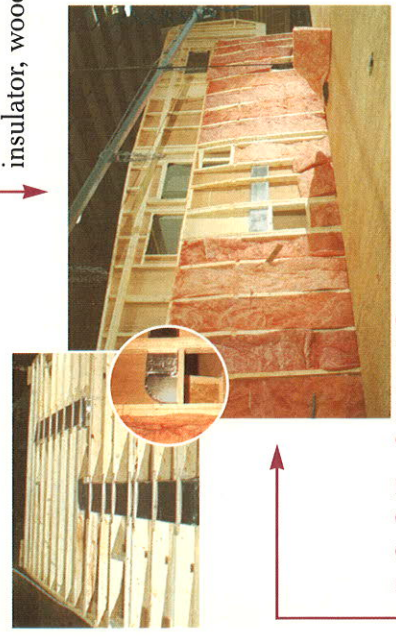

LAMINATED HEADERS

We reinforce each New Vision model with our own 13-ply laminated header above all power slide outs and doors. This exceptionally strong support extends the life of your unit by increasing protection from sagging.

WOOD STRENGTH

Your wood New Vision super-structure offers excellent performance under a wide range of temperature climates, with no chance of stress cracks on welding joints. A great natural insulator, wood does not transfer cold as does aluminum or metal. Wood is

ROOF STRUCTURE

Built with 2x4's supported 16" o.c. and double rafters on both sides of the AC, this is one strong roof with a great insulation system. Insulated ducts maintain temperature better. Radius ducts offer more efficient air flow and prevent blockage. Hand inserted insulation offers greater and longer lasting R value.

TOP MOUNTED SIDEWALLS

We mount your unit's exterior walls directly on top of the floor rather than to the sides. Not only does this keep the side of your unit from waving, top mounting also provides greater structural integrity for the long haul.

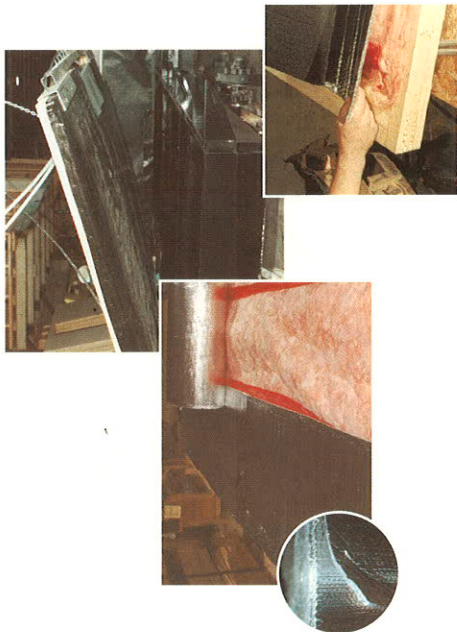

PSO'S BUILT TO LAST

Boasting grease-free recessed rollers, triple seal systems and water drains, we designed our PSO's for long life and ease of use. Constructed with 3"x3" slide out supports, 2"x2" steel tube floor support and a total of 11 & 12 inches of box tube framing, we offer some of the sturdiest PSO's in the industry.

SEAMLESS FIBERGLASS

Your exterior walls are sealed with a *seamless Filon™* fiberglass *hot melted* to two Luan sheets. Over 1/4" thick, this wall offers a stable, smooth surface and greater protection from bowing. Because we use the strongest adhesive in the industry, you'd literally have to rip the wood apart to loosen the fiberglass.

ADDED PROTECTION & HEAT BARRIER

We wrap Darco™ tear/puncture/moisture resistant sub-floor under your floor to protect and seal the insulation. For extra R value, select the optional FlexFoil™ layer, providing you with ratings of R21 on the roof and R12 on the floor. For the greatest protection, choose the enclosed underbelly option.

FLOOR STRENGTH

Our 5/8" tongue & groove plywood floor is supported with 2x3" floor joists every 16" o.c.

EXTERIOR STORAGE

With your convenience in mind, we created these accessible storage areas with large 40" doors. We mounted the concealed gas bottles on the side for ease of access.

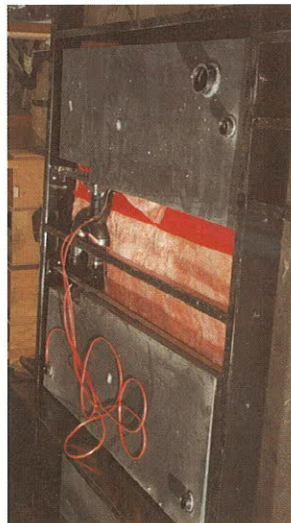

RUBBER ROOF

With a 12 year Limited warranty, and supported by 3/8" decking, your roof keeps out damaging moisture. And yes, you can walk on it.

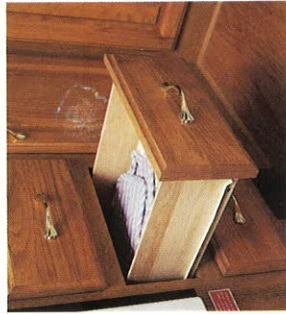

OPTIONAL HEATED HOLDING TANKS

We route your heating ducts directly from the furnace to the insulated holding tank area, providing great protection for cold weather use.

With A Flair for Elegance

CRAFTED WOOD, SELECT BRASS, RICH UPHOLSTERY

DRAWER SLIDES

These rolling drawer slides prevent jamming and allow continued ease of operation. Your New Vision drawers boast *solid wood drawer sides* – not the particle board used by most of our competitors.

OPTIONAL HARDWOOD FLOOR

Enhance the beauty of your unit with an exquisite solid oak plank floor.

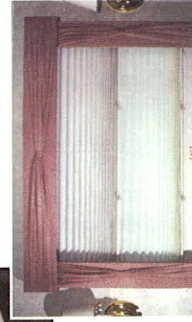

QUALITY FABRICS

Select from an assortment of plush, durable fabrics to customize the appearance of your New Vision.

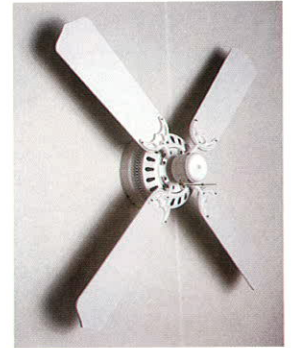

SHADES & MATTRESS

Equipped with Posterest mattresses, Mastercraft furniture and day/night shades, you will relax comfortably every hour.

OPT. CEILING FAN

Attractive and efficient, this is another detail that keeps you comfortable.

Opt. Pull Out Pantry

TRADITIONAL HANDCRAFT MODERN TECHNOLOGY

By combining traditional handcraft quality with today's technology, our New Vision models offer convenience, style and durability. For example, all New Vision cabinets are custom fit and screwed from the inside to floor, walls and ceiling for superior strength and fit.

STANDARD FEATURES

- All Smooth Fiberglass Exterior
- Oak Cabinet Doors w/ mortise tendon joints
- Oak Refrigerator Panel
- Tinted Windows
- Deluxe Swivel Rocker
- Posterest Innerspring Mattress

- Hide-A-Bed
- Free-Standing Oak Table & Chairs
- 15,000 BTU Air Conditioner
- Enclosed Underbelly
- Home Entertainment Center

Limited Vehicle Warranty: K-Z, Inc. warrants that it will repair or replace any part of your Fifth Wheel Model found to be defective in materials or workmanship within 12 months from date of original purchase. Components such as tires, plumbing and electrical features, refrigerator, range etc. are subject to separate warranties issued by other manufacturers. Ask your dealer for details.

Two Year Structural Warranty: The limited two-year guarantee warrants a guarantee against all defects in materials or faulty workmanship for the steel frame and wood structure for 24 months from date of original purchase. Guarantee applies to original owner only and is available upon request for inspection.

Vehicle Loading-Every effort has been made to provide the greatest number of options for the recreational owner. Each owner is responsible to select loads allowing the recreational vehicle to remain within the manufacturer's specified chassis weight limits. Do not overload the recreational vehicle.

Dry Weights are based on standard features only and do not include optional equipment. Carrying capacity is determined by subtracting UVW from GVWR and includes fluids, options and cargo. Liquid capacities and weights are approximations only.

NOTE: This information is intended as a guide only. Weights of individual vehicles may vary. Consult your Owner's Manual for complete loading, weighing & towing instructions.
