BIG FUN

The whole purpose of getting away is to loosen up, relax and enlarge your life. You don't want anything cramping your style. That's why you should own a Challenger Fifth Wheel or Travel Trailer. They're huge! Plus, they're brilliantly appointed with the kind of features that make vacation travel come alive — exquisite, comfort-enhancing features other RVs charge thousands of dollars more for, if they offer them at all. Of course, people expect this from Damon. It's called value. And, in the end, it means you get more of what it takes to make getaways fun.

33MLB • Fossil Decor • Medium Oak

- A unique StepSaver™ kitchen — thoughtfully laid out to make meal preparation quick and easy; features include a double-bowl porcelain sink, a flush-mounted two-door refrigerator, a three-burner range with an oven, and lots of solid-oak drawers and cabinets; increase the convenience with our optional high-capacity microwave
- A big, beautiful solid-oak entertainment center — in most floor plans it features leaded-glass cabinets and shelf space for plenty of personal mementos; in some models, the entertainment center has a small desk; optional TVs, VCRs and stereo systems are also available
- A free-standing dinette in every model — though it's stationed in the slideout, you can move it wherever you want to accommodate an informal meal, a friendly conversation or a good game of cards
- Exceptionally roomy, open floor plans that let you stretch out and relax — especially with our space-adding slideout rooms
- Abundant storage space, inside and out — why leave anything behind? Challenger RVs let you bring it all
- Optional wall-hugger recliner chairs in many models — move them where you want as well

33MLB • Fossil Decor • Medium Oak

33MLB • Fossil Decor • Medium Oak

1

- Designer decor, evidenced in rich medium-oak cabinet doors, understated wall coverings, and a choice of fashionable fabric colors and patterns that include Abalone, Tourmaline, Malachite and Fossil
- Truly elegant furniture and interior details
- A plush, super-comfortable 72" Hide-a-Bed Sofa that increases your Challenger's sleeping capacity and has the added advantage of being moveable; extending it into a bed is easy too
- Decorator window treatments — including smart, fabric-covered lambrequins and valances and, if you like, optional day/night shades for extra privacy
- A master bedroom of exceptional warmth and richness — the perfect place to unwind after reveling in a flurry of vacation activities; with our slideout, you increase the room by almost 20 percent, so you can really stretch out; additional features include a cable-ready TV shelf, a bedspread, shams and a headboard, where available, and the option of a very practical vanity table
- Outside, a standard awning that essentially gives you up to 160 additional square feet of living space
- In some models, a standard bay window rear cap that not only looks good but opens up the back of the coach to amazing scenic views

EXPAND ON DEMAND

You want more living space in your Challenger? You've got it. All it takes is the push of a button, and Damon slideouts glide smoothly into position, expanding a room like magic.

With some Challenger floor plans you get three slideouts, which can add up to 72 more square feet of living space. All other Challengers have at least one slideout and quite often two.

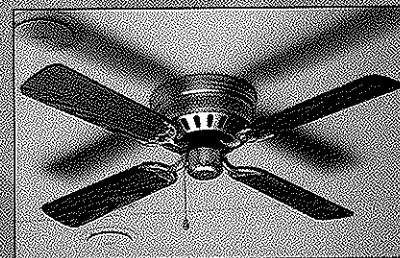

You'll especially like the way they're integrated into the overall decor scheme. To unify the interior look, nicely detailed solid-oak fascia adorns the wall on either side of each slideout opening.

The slideouts in Challenger Travel Trailers are distinctively designed with a step-up floor. Challenger Fifth Wheel living rooms with slideouts feature Damon's exclusive EasyGlider. The floor in an EasyGlider slideout is flush with the coach floor, so there's no step up, plus you get extra height — a full six feet of standing room. EasyGliders also have larger windows, which really help "open up" the interior, giving it a lighter, airier feel.

DAMON DESIGNER DETAILS™

- It's the level of detail in every Challenger that sets it apart from the competition and makes it such an incredible value. Quality components like these are part of the package:
- A high-volume paddle fan (in fifth wheels only)
- Matching designer fabrics on dinette chairs and recliners
- Cabinets with classic leaded-glass door panels
- Decorative wallpaper borders in the kitchen and slideouts

Light Oak

STORAGE, STORAGE ... AND MORE STORAGE

Veteran RVers know it. First-timers soon discover it. You can never have too much storage in an RV. Challenger takes it to the max.

A case in point is the ample kitchen pantry we've conveniently positioned next to the flush-mount refrigerator.

In the bedroom, you'll find an especially large closet to accommodate all the clothing you could want on your travels. This closet features elegant, room-expanding mirrored doors too. And check out the beautiful solid-oak bedroom cupboard. Its extra drawers are perfect for storing sweaters or various personal items. Some floor plans have pass-through storage in closets.

Our tri-level floor plans not only give you more useable floor space but allow for roomy pass-through storage compartments outside. Large items like ice coolers, fishing tackle, lawn chairs and life preservers can be stowed here easily.

Of course, there's plenty more storage in the handsome drawers, cupboards and shelves we've installed throughout the Challenger. As far as we're concerned, storage is no luxury ... it's a necessity.

Challenger

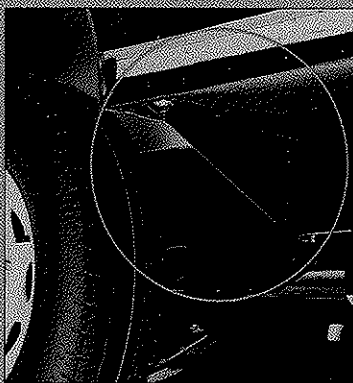

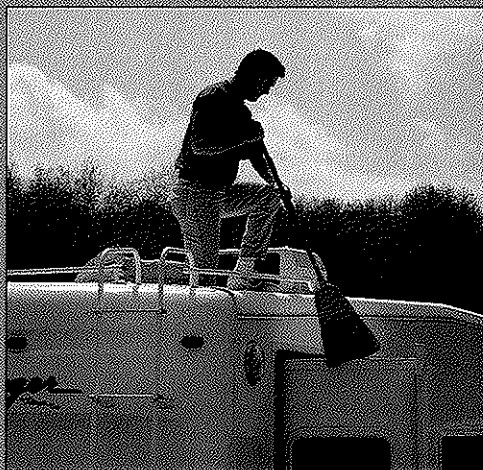

CONSTRUCTION HIGHLIGHTS

Few competitors build their sidewall frames with as much aluminum as you'll find in Challenger sidewalls. No wonder Challengers are so strong and rigid. Of course, it goes beyond that. Behind the aluminum we add insulation, then vacuum-bond the entire structure to fiberglass. This creates a one-piece laminated wall that's corrosion-resistant and tough as nails.

To impart even greater structural integrity to the sidewalls, we brace a full-height outrigger to the welded steel frame. This also adds support to the floor.

Finally, we screw the aluminum-frame walls of every Challenger to the top of the floor, not to the sides of it. Thus, the entire floor supports the walls instead of just the screws. The attachment is much stronger; the RV is sturdier, more stable.

Now come inside and take a good look at our cabinets. We don't staple them together like some manufacturers do. Rather, we screw them together, which makes them much stronger. And we screw them — not staple them — into the sidewalls. This ensures that they stay put ... and stay quiet.

Total Quality

Service

At Damon, we're committed to keeping you on the road, committed to making your getaways as pleasant and trouble-free as humanly possible. That's why, as part of our continuous improvement effort, we've inaugurated Total Quality Service. Among its benefits is a computerized communication network that will link Damon dealers across the country to our corporate offices. Dealers can get parts in a snap. They can also handle your warranty claims faster and more efficiently. And, from our end, we can make sure our dealers always have the latest, most up-to-date service information. Oh, yes, another TQS advantage is that you can now get quality Damon service not just from a Damon dealer, but from virtually any RV dealer anywhere in the country. Damon and TQS. "Now you're going places" for sure!

StartRight
Quality
Assurance

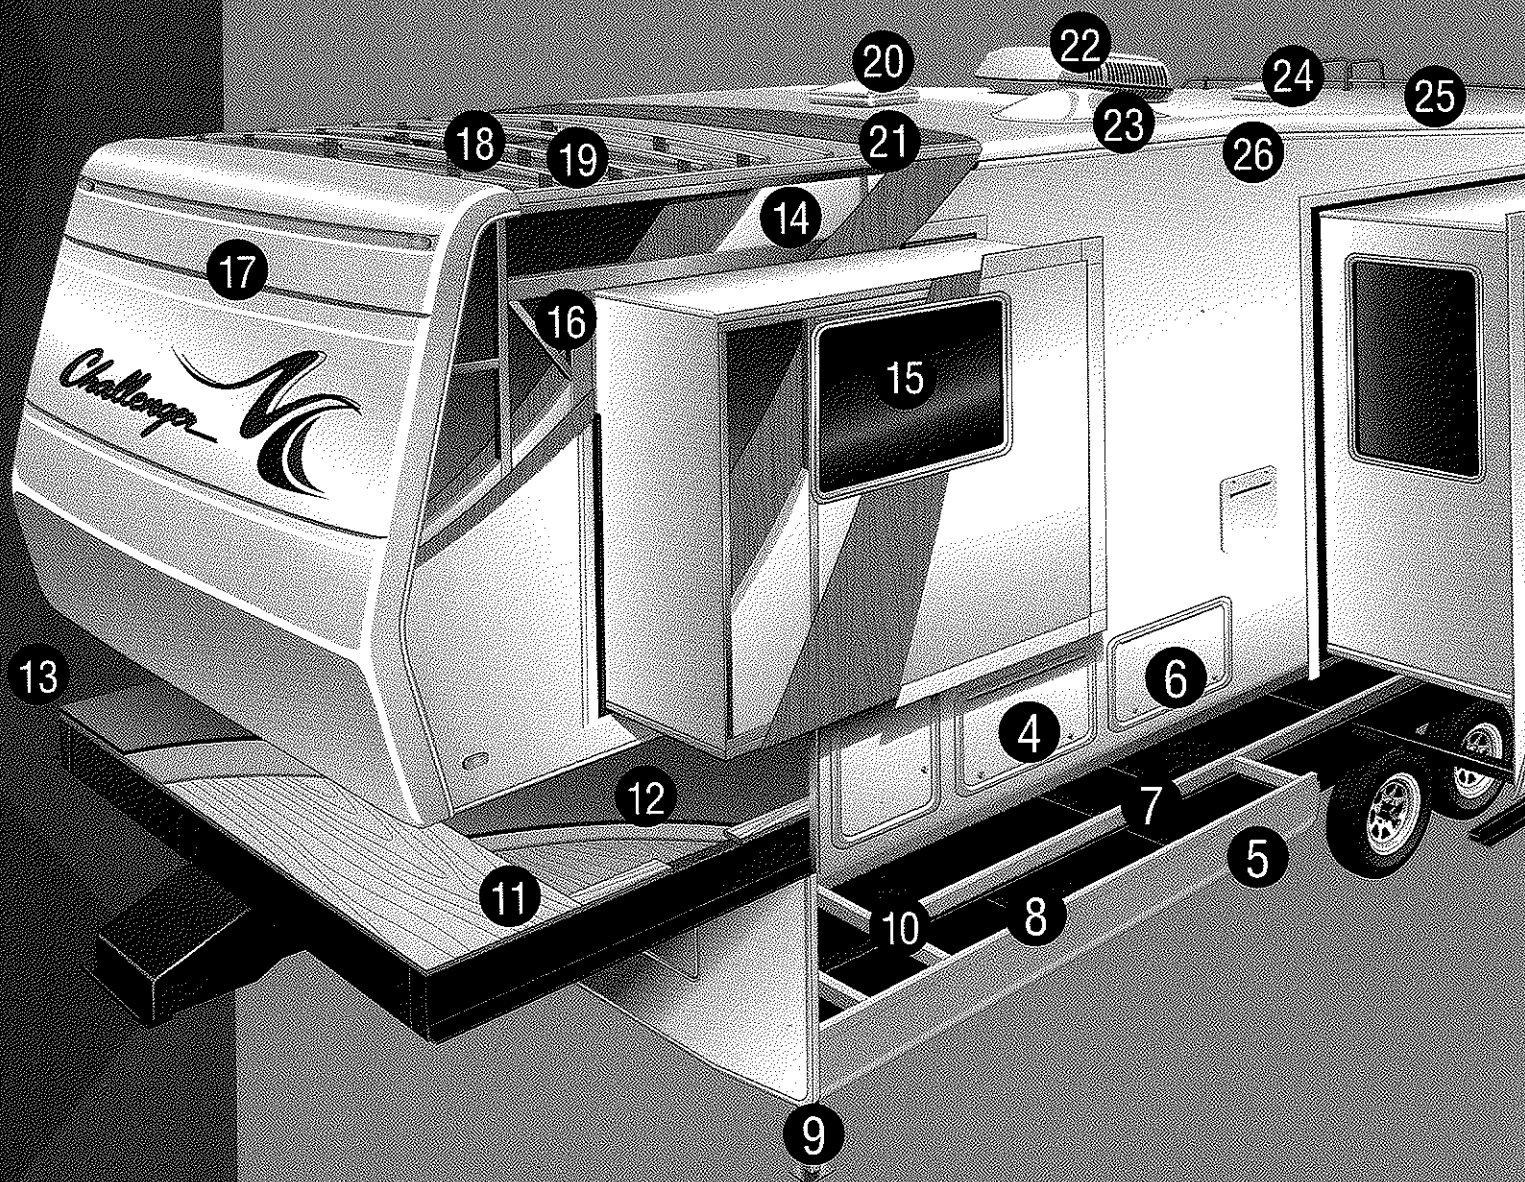

This is a strenuous 400-point inspection test that every Challenger must pass before it leaves the factory. We've set our standards high because we know yours are. And it's our goal, always, to go beyond your expectations ... to go the extra mile for you. Result? You're assured years of safe, trouble-free camping.

1

BUILT TO ENDURE

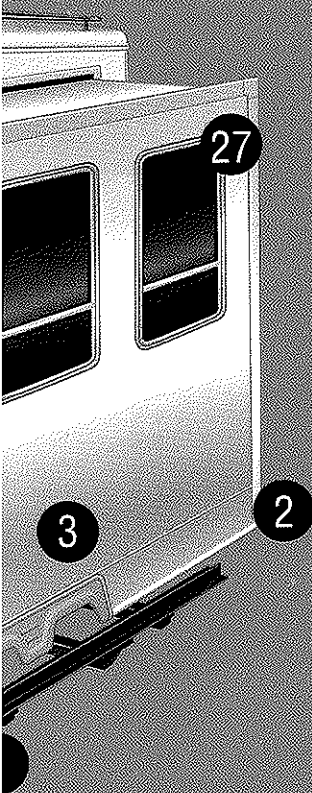

Every Challenger, indeed every Damon RV, benefits not only from our years of experience, but from modern, computer-aided design and innovative manufacturing technologies. They help us build products that last, products that retain their value over the years and miles.

Of course, it helps that Challengers offer so much value to begin with. Here, you'll find more standard features, more luxury innovations, more storage and living space and more Designer Details than in any other towables in their class. And the construction is absolutely first rate. Features like those shown below make the difference.

OUR EXCLUSIVE COMFORT CONTROL CENTER™

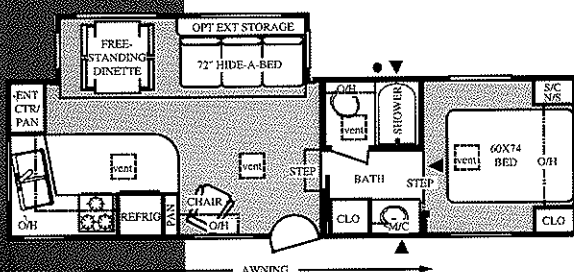

When it comes to keeping you comfortable, winter, spring, summer or fall, it's hard to beat Damon's exclusive Comfort Control Center. This smartly engineered system circulates air and works with your Challenger's well-insulated walls and ceiling to regulate the temperature throughout the coach. In cold climates, heated air is circulated up through the floor ducts to keep you toasty warm; when it's hot outside, cold air is circulated down so you're always comfortably cool.

- 1** Space-adding slideout rooms — in fifth wheels, they feature the smooth, simple push-button operation of Damon's exclusive EasyGlider hydraulic system (EasyGlider slideouts level flush with the coach floor too, so you get a flat, no-step surface and extra headroom)
- 2** A sleek-looking, automotive-style rear bumper that's fully integrated into the end cap
- 3** A gleaming Ice White™ exterior constructed of smooth vacuum-bond laminated fiberglass for extra durability and easy maintenance
- 4** Fully lined and lighted pass-through exterior storage compartments that are sealed with insulated doors and feature compatible locks that allow access with a single key
- 5** A fully enclosed underbelly that protects the holding tanks, reduces wind resistance during travel and permits worry-free extended seasonal use
- 6** Damon's exclusive One Flush System™ that allows you to empty all your waste water tanks from one convenient location; plus our optional exterior shower that makes clean-ups easy
- 7** An incredibly strong, safe structural steel I-beam frame of welded 10" cambered steel
- 8** Heavy-duty steel outriggers that provide additional wall support and lend extra strength and stability to the entire RV
- 9** Electric front jacks that level and stabilize your Challenger at the push of a button (fifth wheels only)
- 10** Aluminum walls that are securely floor mounted for optimum structural integrity
- 11** Solidly constructed, eminently durable 5/8" tongue-and-groove floor decking
- 12** The extra comfort and insulation of a high-quality, residential-style performance carpet with padding — it's stain-resistant and trackless too
- 13** An easy-to-operate, skid-resistant triple entrance step that offers excellent traction and makes getting in and out of your Challenger a breeze
- 14** Full 1-1/2" expanded polystyrene block-foam insulation in the sidewalls; it not only increases energy efficiency but helps provide an outstanding acoustical barrier
- 15** Door and window openings that are completely framed for added strength and durability
- 16** Strong yet lightweight welded aluminum superstructure framing — another reason for Challenger's safe, dependable structural integrity
- 17** Fully integrated front and rear fiberglass caps that create a clean, uncluttered look and increase curb appeal
- 18** Foam-insulated central air ducting — an enhancement to Damon's Comfort Control Center™ that helps distribute cool air more efficiently
- 19** Bow truss rafters on 16" centers that secure the roof foundation and allow water to run off freely
- 20** Fantastic roof vents that are standard in Challenger bedrooms, optional everywhere else; they're thermostatically controlled and have two speeds for more efficient ventilation
- 21** An incredibly strong, durable 7/16" thick roof deck that provides plenty of support for roof cargo
- 22** 13,500-BTU central air conditioning that's thermostatically controlled for superior cool air distribution
- 23** A standard skylight in every Challenger bathroom; it bathes the room in clear, natural light
- 24** An aluminum roof rack and ladder on Challenger Fifth Wheels makes it easy to get at roof cargo
- 25** A seamless, one-piece roof that comes with a full 12-year warranty; it's specially formulated to withstand exposure to the elements while providing added acoustical and thermal insulation
- 26** Radius corners that eliminate a roof seam and allow proper water runoff
- 27** Attractive radius-cornered windows that are accented with Ice White™ frames and constructed of corrosion-resistant aluminum for reduced maintenance
