Travel Trailers & Fifth Wheels

Springdale™
by Keystone

Comfort

**If you think
the RV life style is
"roughing it,"
look at the beautiful
Springdale...
and think again.**

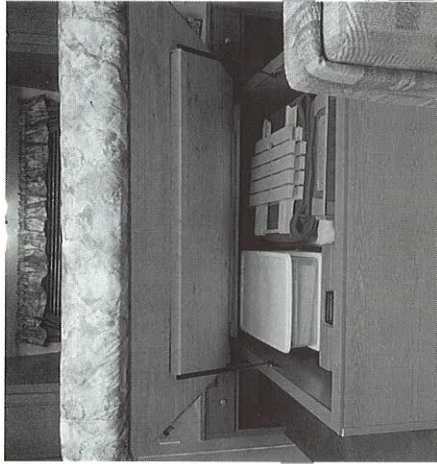

With Springdale, traveling is comfortable, easy, and carefree. From ease of towing to the many interior details you've said you are looking for, the Springdale line of travel trailers and fifth wheels delivers the best value, dollar for dollar, on the market today.

Created with Keystone integrity from the inside out, Springdales are built for permanence with residential construction methods like solid floors, studs on 16" centers, engineered truss roof rafters, and floor-ducted heating. Sturdy exterior features like the triple-sealed, one-piece roof and the flush-mounted rock-guard front awning keep your Springdale beautiful even after the most rugged outdoor adventure.

It's time to come home to Springdale.

The 295 BHLGL Springdale Travel Trailer Floorplan with Slide-Out Sofa and Dinette. You'll enjoy designer touches like the wood-grained slide-out face and upholstered valances, and full-height overhead cabinets with integrated open shelves. Style and comfort can be affordable, and Springdale proves it!

Underbed Storage is part of Springdale's easy life. Here's where you'll place large items and anything you don't want to bend or fold, with no water tanks to get in your way.

You'll love the convenience of these tip-out trays under the sink area. Don't you wish you had these at home?

Choose your Springdale from a wide variety of floorplans. Shown here, the open floorplan of the 245 FBL offers space, comfort and features usually found only in much higher priced models. Springdales are available in five stylish interior color schemes. And the easy-care fabrics, counters, and floor coverings allow you to focus on the important things of life... things like relaxing in your Springdale.

Large families love our triple bunk, 290 3BL Floorplan. It sleeps nine, and there's always ample wardrobe space. There are five drawers in the bedroom alone.

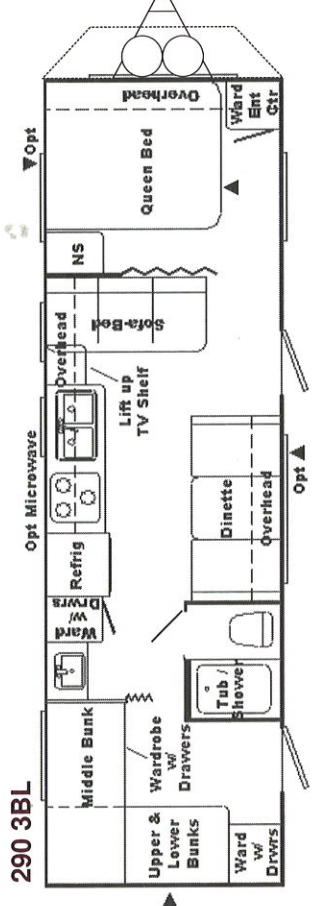

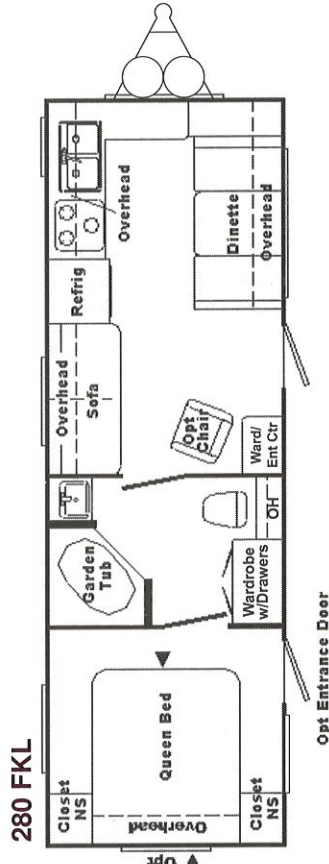

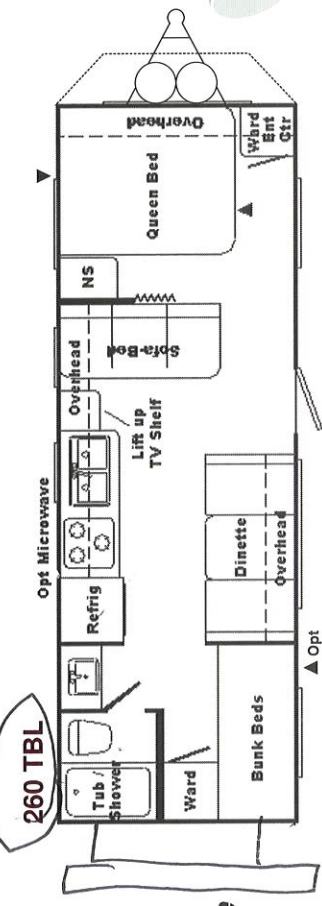

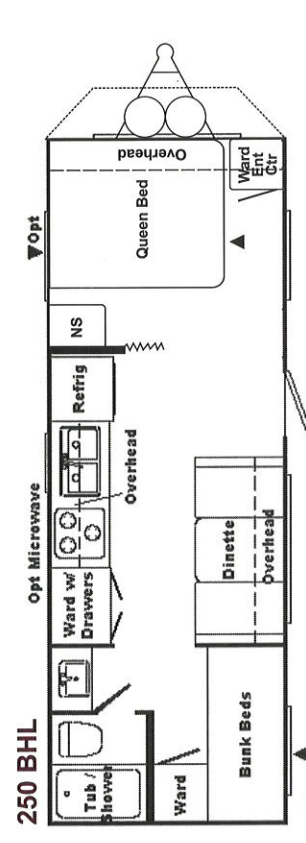

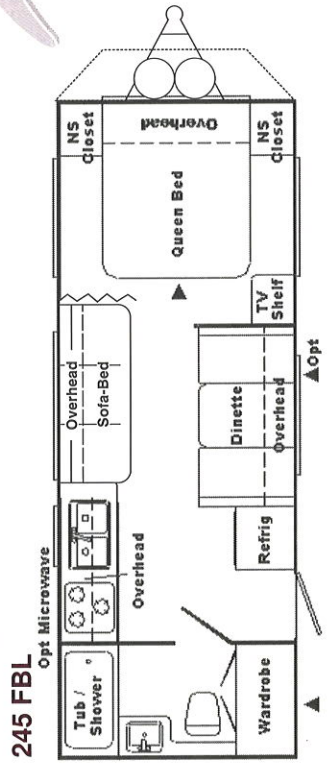

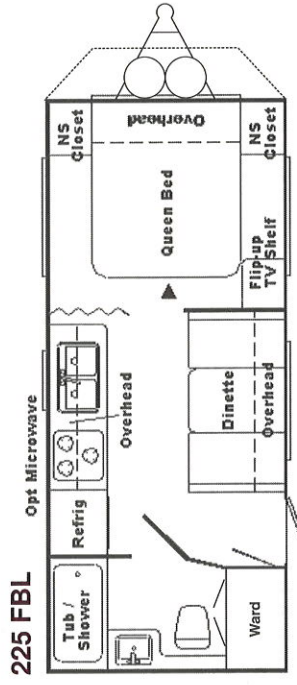

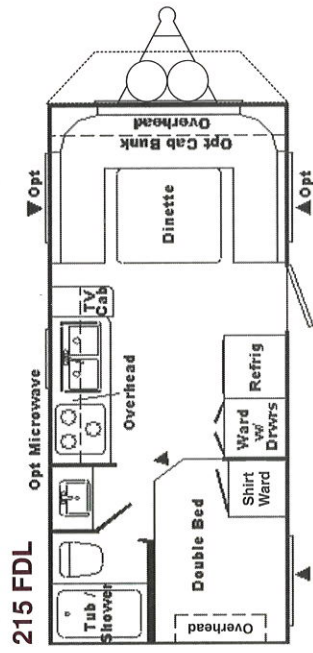

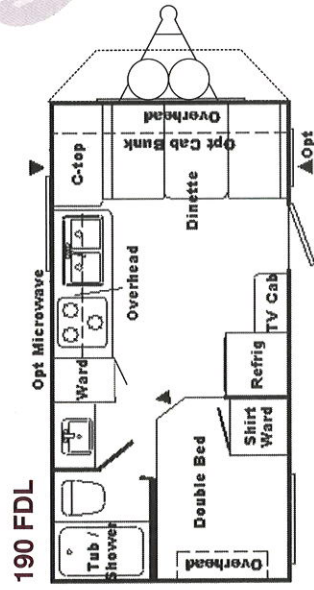

Barstool Option, available in the 295BHLGL and 370BHLGL Travel Trailers and the 245FWRLLS Fifth Wheel.

Notice how this option allows extra counter space, a priority in our designs because you've said that's what you are looking for.

VALUE INSIDE AND OUT

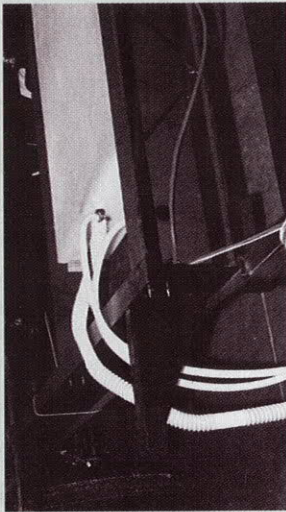

Dollar for Dollar,
the Best
RV Value on the
Market Today

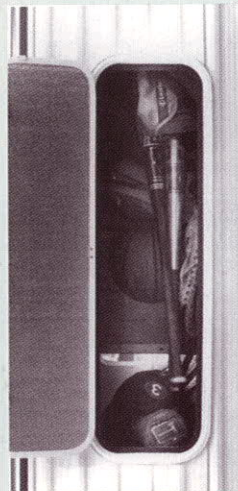

Crowned, residential style, 4-1/2" truss rafters are shown here with adjustable air conditioning ducts (ducts are optional).

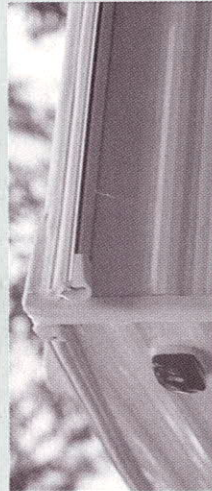

The optional ABS cap makes the Springdale even more attractive. It also increases storage and encloses the LP bottles. Shown above, optional smooth fiberglass exterior, or choose the strong .024 mesa metal exterior.

Our patented Space Maker® under-floor fresh water system provides a large-capacity fresh water tank located under the floor in a heated compartment to prevent the tank from freezing. By removing the tank from the interior of the unit, useable storage space is greatly expanded. Space Maker's tank location also lowers the center of gravity, improving towability.

Here's even more storage, accessed from outside. Take along your favorite leisure items. There's room in your Springdale.

Gutters prevent dirt from running down the side of your Springdale. Keeps your Springdale looking clean in any weather.

Features

Look at These Features
Usually Found Only in Much
Higher Priced RVs

- 8' Exterior width
- .024 Mesa metal exterior
- Carlisle EPDM triple-sealed, crowned rubber roof. Reflects heat, quiet in the rain, wrapped over side and rear walls for tighter seal, 12-year manufacturer's warranty
