

The Drive of a New Generation . . .

FORVET 2002

The quest for outdoor adventure and relaxation at your own pace has driven the move of thousands upon thousands of you, the RV enthusiasts of North America, to seek the comfort of your own travel trailer or fifth wheel. Hornet and Hornet Lite travel trailers and fifth wheels have steadily grown with the RV life style as your ideal choice for style and efficiency, along with affordability.

You'll notice Hornet for 2002 in the campground or on the open road from its sleek lines and sharp graphics. Stepping inside, you'll feel the satisfying warmth of home. You'll enjoy the spaciousness and the storage, unrivalled in any product at this price point.

When you choose Hornet to begin or continue RVing, a world of comfort, fun, and convenience awaits you—Hornet and Hornet Lite, driving a new generation of travelers and adventure seekers.

This close-up view of the 275H Hornet kitchen, above, glows with the warmth of all-wood, raised-panel, mortise-and-tenon cabinetry. The decorator tile-look floor completes the "home away from home" feeling.

Shown on the right-hand page, the appealing 32R floor plan, in Mulberry, exemplifies the fashion and harmony of the entire 2002 Hornet product line. Notice the open look of the flush-floor slide room, which blends with the rest of the living area. Overhead cabinets and ample lighting add to the richness. Comfortably wide dinette booths are a Hornet standard.

HORNET *Lite*

Hornet Lite, the easy-to-tow choice, has been designed especially for towing by today's half-ton pick-up trucks and most SUVs. Built with the same high standards of construction used on regular Hornets, Hornet Lite also has many of the same features and available options.

STANDARD EXTERIOR FEATURES

- .024-Gauge Mesa Aluminum Exterior

Shown here is the Hornet 275H Fifth Wheel floor plan in the Canyon Green color scheme, with an inviting rear lounge offering a massive view of the beautiful outdoors. The neo-angle sink in the kitchen also permits an outside view. Notice there is a convenient end table beside each rear lounge chair, "because you asked for it."

Hornet's bedrooms have a soft headboard that coordinates with the bed spread. This is to ensure maximum comfort while relaxing or reading on your queen sized bed in your master suite.

New for 2002, Hornet's optional porcelain RV-Q™ outside grill hooks up to the unit's standard propane system. There's no need for an extra tank. RV-Q™ comes with its own storage bag for convenient packing. So simple, so easy...

Features shown are not available on all models.

Quality Begins With Construction

Of course, Hornet's advanced engineering and computer-aided design and manufacturing technologies make a difference in the durability and sturdiness of each and every travel trailer and fifth wheel we manufacture.

But there's another important component.

Manufacturing is about people. And at Hornet, we are proud of a workforce that has a high standard of quality. We are fortunate to be creating Hornet products in a community which values workmanship and craftsmanship.

When it comes to craftsmanship, our cabinetry is a good example. Each component, as shown above, is carefully screwed together, not stapled. We also use high quality Lumber-Core cabinetry, not fiberboard, for long-term durability, just like you'll find in the finest residential construction. From its solid steel frame to its one-piece rubber roof, every inch of the Hornet you don't see is made with the same care as the Hornet you do see.

All Hornets and Hornet Lites offer outside-access storage, where you'll find pass-thrus on most models. The carpeted space is versatile and flexible for all kinds of gear and equipment you want to take along. Storage space is a priority with Hornet. Look for the (▲) on the floor plans, which shows the location of extra storage space.

Hornet's clamp-ring compartment door moldings have no exposed screws. This creates a much cleaner look and eliminates the possibility of leaks into your storage areas. Finger pulls are provided for ease of opening.

Ultra-Lube axles are a feature of every Hornet. Don't take your Hornet to the shop when it's time for lubrication. Just remove the cap, hook up a grease gun, and the job will be done in a few minutes.

Hornet™ and Hornet Lite™ are products of the Elkhart division of:

Hornet Is Customer-Driven

Hornet Travel Trailers and Fifth Wheels are proudly manufactured in Elkhart, Indiana, by a large, experienced team of dedicated individuals. Many are RV industry veterans, so we understand the RV life-style.

At Hornet, we strive to create a quality recreational vehicle from the inside out, then furnish each of our products with all the features you have said you want. We founded our company with the idea that we would always stay attuned to our customers; we intend to continue this mission.

Product information and photography are as accurate as possible at the time of publication. Colors and finishes are photographic representations and may appear different from actual materials. Some features shown are optional. Features, floor plans, and specifications are subject to change without notice. Specifications and dimensions are approximate. 9/01
