# Say hello to Excel!

And say hello to outstanding craftsmanship! For over 38 years we've been obsessed with quality — paying close attention to every detail, and constantly striving for perfection.

That commitment to quality has made Excel a leader in customer satisfaction and product innovation for over three decades. Every Excel employee, from the engineers who develop new concepts to the detailers

who polish the finished product, is dedicated to creating the finest recreational vehicle on the road today.

But you don't have to take our word for it. Ask any Excel owner what they love about their fifth wheel. (Just make sure you have some free time and a comfortable chair— they'll be talking for awhile.)

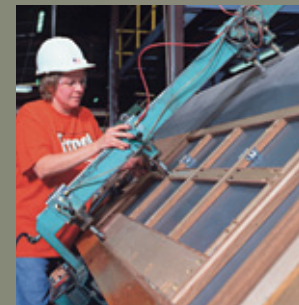

We weld our own mainframes in the Steel Fabrication Department, keeping quality under our control.

From window treatments to upholstery, sofas to mattresses, our skilled crafts people build your Excel by hand.

We install high density insulation under a polyethylene vapor barrier on both the roof and floor.

Excel face frames are screwed, not stapled, for added durability and long life.

# There's so much more for 2004!

**NEW!**

Calling all trekkers! RV trekking is the latest trend in recreation, and it's all about taking your fifth wheel where it's never gone before. Back roads, rough roads, deep in the middle of nowhere — it's all open territory for the new ExcelRT.

The ExcelRT (RV Trekker) has every bit of the topnotch quality you expect from an Excel fifth wheel, with additional features that keep you comfortable in rugged terrain. A tough exterior, heavy-duty chassis and well-built interior are hallmarks of the ExcelRT. Other features appealing to trekkers include an optional dining booth, hide-a-bed, and generator box.

32SKW Bedroom

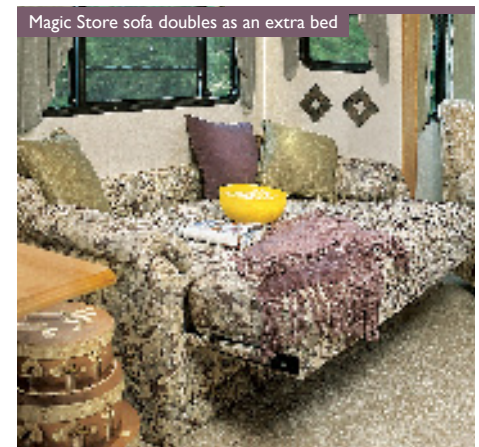

28TRW Dining Booth

You can take your ExcelRT trekking just about anywhere, and when you do, you'll appreciate the insulation and climate control that keep you warm in mountain snow and cool

in summer desert. The convenience package, which includes a stereo with CD, utility center and much more, makes your ExcelRT even more of a home on that rougher road.

## Be at home wherever you go.

Sumptuous details, rich textures and serious luxury are all part of the Excel Limited — the next step in our never-ending pursuit of recreational perfection. Take one look at the thick, luscious carpeting, gleaming oak cabinetry, high ceilings and large windows and you'll know you're someplace special. Exceptional standard features and exquisite options combine for a distinctive, refined home-away-from-home that reflects your

appreciation of the good things in life. Take your dream kitchen with you when you travel! The Excel Limited offers solid surface countertops, spacious slide-out pantries and deep drawer storage. A handy flush mount stovetop cover that adds to your counter space is also standard. And you can add to your gourmet luxury with options like the impressive peninsula kitchen or quad door refrigerator.

\*Standard on 38RDO

The information printed in this brochure reflects product design at the date of printing. Peterson Industries reserves the right to make changes in the design and material specifications without notice. Some features shown in this brochure are optional and may only be available in selected floorplans. Photographs use props and decorations that are not standard equipment.

O Drop down flat panel TV in bedroom

O Central vac with powerhead

O Slide-out storage tray keeps your belongings within reach.

O Camper jacket adds style and protection, and yet still allows you to access the basement door.

O The boat hitch doubles as a receiver hitch for a bicycle rack.

O Pillowtop Mattress

O Exterior utility center offers convenient access to water and electricity.

O Pivot-EZ sewer hose compartment ensures you'll never have to disconnect your hose from the RV.

O The satellite dish with GPS means you'll never be at a loss for television programming.

O Electric stabilizer jacks make set-up a breeze and saves your back and shoulders.

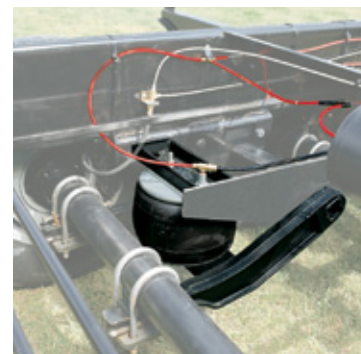

O Quad door fridge

O Slideout propane compartments on each side of coach keeps tanks secure, and makes the controls easy to read and reach.

O The Electric Awning is just as sophisticated as the rest of your RV — operate it from inside, key fob remote control, or let the wind sensor automatically retract it!

O Smooth out the road with this independent **Air Ride** suspension system, acting in tandem with a torsion axle, that puts each tire on its own active cushion of air — filling and releasing as needed.

O The **Mor/ryde** (rubber independent suspension) system replaces the standard leaf spring suspension to provide smoother towing and better protects your RV from road shock.

# Outstanding construction sets us apart.

- Wood frame construction is especially beneficial to full-timers because of its strength, durability, and comfort.
- Full 5/8" Structurewood™ floors are sturdy, quiet, and give your home a solid base.
- Heated basement area protects under-floor systems and stored items from weather extremes.
- Exclusive "Walk-Anywhere" one-piece fiberglass roof (Excel Limited Edition) is not only easy to maintain, but providing an exceptional barrier against the elements.
- Gel-coated fiberglass exterior (on Classic and Limited) gives your Excel a beautiful, easy-to-clean, durable outer skin that is virtually impervious to the elements.
- R7 sidewall insulation (doubled in the floor and roof) helps keep the coach cozy in winter and cool in summer, while also saving on heating a cooling costs.
- 2" x 4" tapered roof design provides outstanding run-off—shedding rain and snow more effectively and completely than flat roofs.

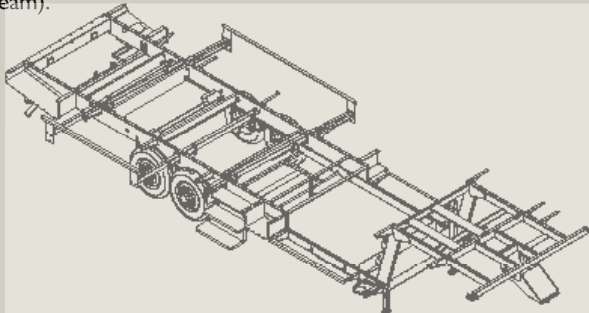

## Construction Spotlight: NEW Slide-out Gear Box!

The 2004 Excel RVs feature a sealed, oil-packed gear box for the slide-outs — providing virtually indestructible, maintenance-free dependability that will give you years of reliable service.

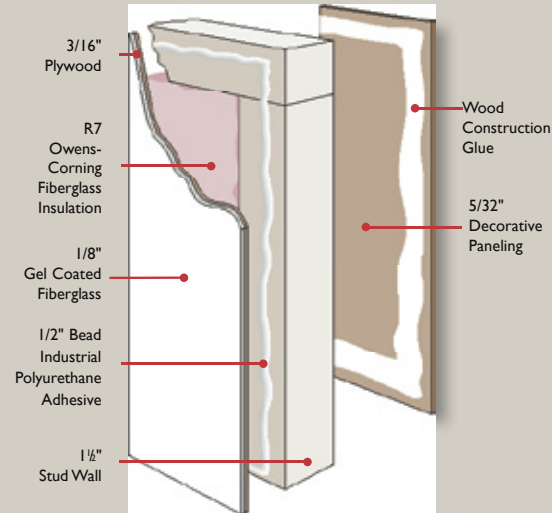

## Construction Spotlight: "Drop Z" Frame Design

Our exclusive frame design provides a lower center of gravity for easy towing stability, and more useful basement storage. We use a box tube frame for unbeatable strength and durability (not C-Channel or I-Beam).

## Construction Spotlight: PPLS (Positive Pressure Lamination System)

Our unique lamination system ensures the strongest, most reliable sidewall available. No delamination or buckling!

**Fact:** Did you know that the industry standard for fiberglass sidewall delamination is about 1%? That means one out of every hundred coaches have a delamination problem. To date, we have manufactured over 7,000 sidewalls using our exclusive PPLS system without a single case of delamination.

Leave your worries behind with our unbeatable warranty.

With Excel's new Zero Degree Guarantee, you can be sure your holding tanks, water tank, interior water lines and other essential plumbing won't freeze — all the way down to zero degrees\*!

Excel's 2-Year Total Trust Warranty is your guarantee that, in the unlikely event something goes wrong with your Excel fifth wheel, we'll fix it. It's that simple. We have so much confidence in our quality workmanship and attention to detail that we promise your Excel fifth wheel will be free from defects in materials or faulty workmanship for a full two years after its original purchase.

\*The Zero Degree Guarantee is in effect on all 2004 and later models with optional Thermopane windows installed. Furnace must be in operation for guarantee to be in effect.
