2005 ULTRA LITE TRAVEL TRAILERS

Make every moment count.

It's time to get away from it all with the Coachmen Capri™. Take along friends, the kids...even the family pet! Travel with the comforts and conveniences of home.

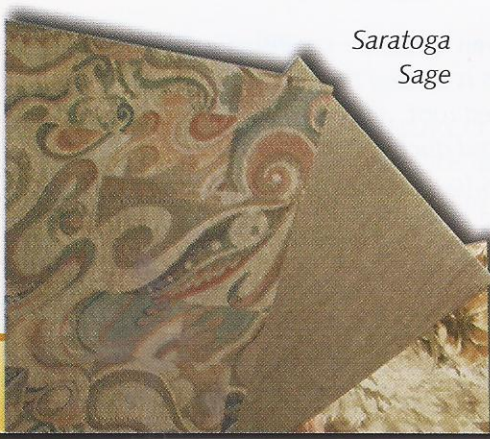

Make your own schedule.

Go where you want...when you want.

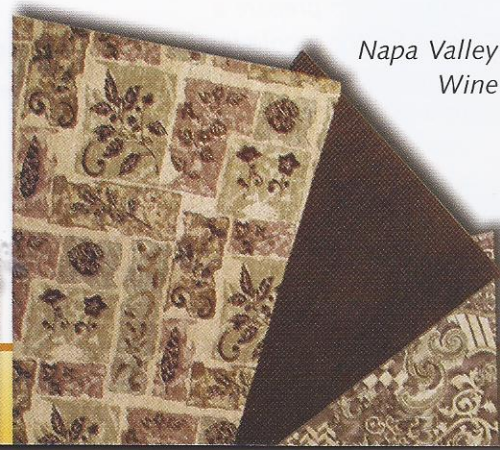

Ample storage means you can pack as little or as much as you need. Experience the freedom of the open road.

The Coachmen Capri™ 29KS is equipped with many valuable features, such as a high spout faucet, laminated self edge countertops, undersink silverware drawer, durable mortise and tenon cabinet door construction, and designer box valances... just to name a few.

CAPRI™

2005 ULTRA LITE TRAVEL TRAILERS

The deluxe 12V AM/FM stereo with CD player is conveniently mounted underneath the overhead cabinets so it is up and out of the way. (Key Largo package)

Our standard metal drawer guides with glide wheels provide a friction free sliding drawer that is extremely durable. The drawer glides also act as a catch so that the drawer will not slide open during travel. Simply lift up and pull to open the drawers.

The double door refrigerator is designed for maximum storage capacity with door storage and a handy freezer shelf. A convenient refrigerator light is also standard for those midnight cravings. (Key Largo package)

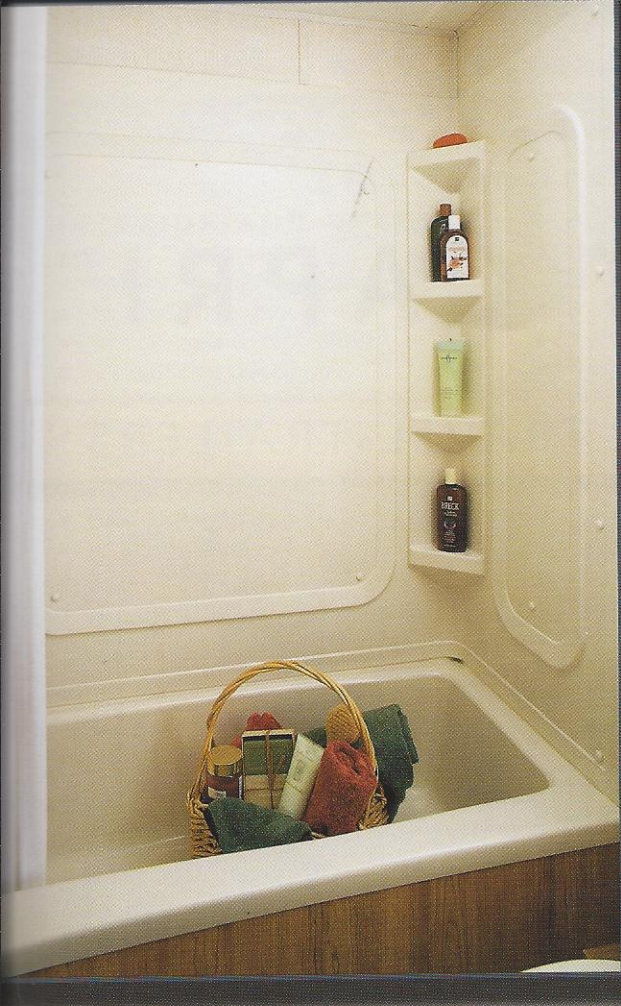

Even Cool™
By Coachmen

The Even Cool™ air conditioning system is ducted through the crowned roof, and utilizes AMOCO® insulated ductwork with radiused corners to provide for maximum cooling efficiency. (19DB non-ducted)

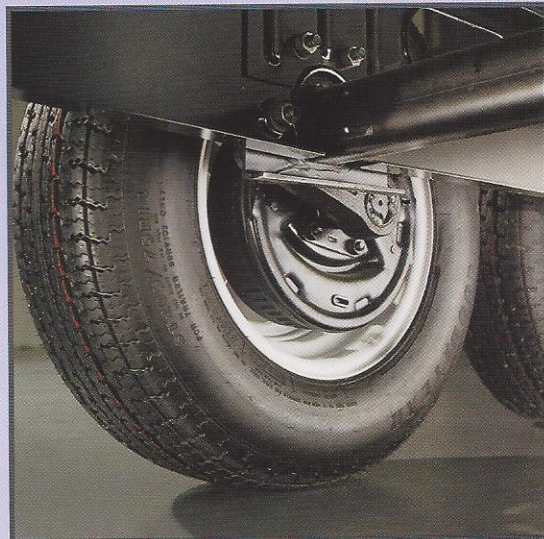

The Capri™ galley is fully equipped to prepare a feast for the whole family with a high spout faucet, optional microwave and conventional oven. An under sink silverware/utensil drawer is included to maximize interior storage space.

A one piece ABS tub surround provides a protective wall barrier with an easy to clean seamless surface, and built in shelving for your shower supplies. (Key Largo package)

Capri™ features fully independent torflex suspension for improved towability and a smoother ride for the trailer.

ALUMICAGE™ CONSTRUCTION

By Coachmen

All Coachmen Capri™ Ultra Lite travel trailers feature **Alumicage™ construction**. This lightweight, corrosion resistant, aircraft grade aluminum material is utilized throughout the roof, walls and floor for superior strength and ultra light weight.

The Flair-It™ compression fitting water line system uses radius bends to reduce the number of fittings used by over 50%. Where connectors are needed, a compression fitting ensures a long term, tight seal.

All Coachmen Capri™ travel trailers utilize **Duratube™ full length copper LP lines** with double flared ends to ensure a tight seal and years of corrosion free use. Coachmen builds in quality for the long haul.

The lightweight **NORCO sectional frame** is fastened together with huck fasteners (the same fasteners used on the HUMMER). This frame is the ultimate combination of lightweight and durability.
