

HORNET 2005

TRAVEL TRAILERS & FIFTH WHEELS • DESIGNED FROM THE INSIDE OUT

HORNET

proudly presents style and convenience never before seen at this price point

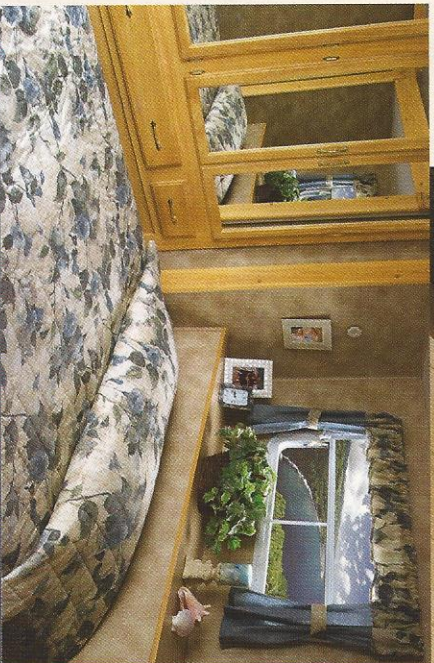

ALL CAREFULLY DESIGNED FROM THE INSIDE OUT

For 2005, Hornet continues to place our emphasis on interior design and detail, in order to make a time-honored RV brand even better than ever. The closer you get, the more you see how every corner, every shelf, every storage space has been planned to make life inside your Hornet as comfortable and enjoyable as in the highest priced brands. And, even though there's a Hornet travel trailer or fifth wheel to please every type of RV enthusiast, there is one thing each Hornet has in common...It has been designed from the inside out.

At left, model 33FLDS in Hornet's Nantucket decor. The front entertainment center allows a combination of a great view and extra storage space. The optional sliding patio door enhances the open residential feeling of this very popular floor plan.

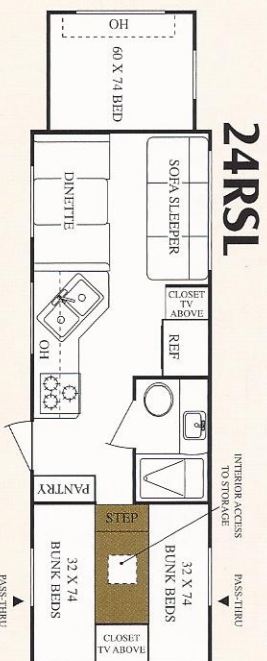

At left, the bedroom of the 33 FLDS echoes the style and comfort of the living room with a convenient shelf and wide window above the bed. Mirrored wardrobe doors and deep drawers offer ample storage. Hornet's kitchens, like the 275H above, are all planned for easy, carefree living. Features like the deep double-bowl sink with high-rise faucet and oversize countertop have been designed for your convenience. Hornet cabinetry is assembled with screws, never stapled, and features solid wood doors and drawer fronts.

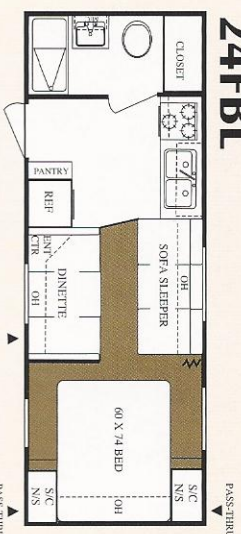

HORNET Lite

Hornet Lite, the easy-to-tow choice, has been designed especially for towing by today's half-ton pick-up trucks and most SUVs. Hornet Lite is built with the same high standards of construction used on regular Hornets.

Hornet's quality is unrivalled in any recreational vehicle product at this price point. While we have made major improvements in our interior styling for 2005, we have also continued to maintain high standards of Hornet construction, from our solid steel frames to our

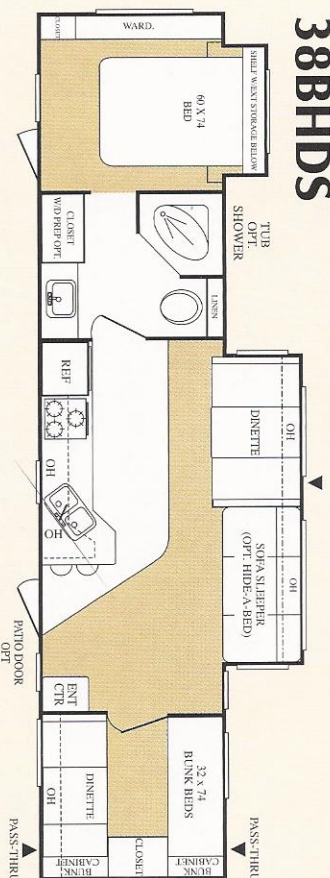

walkable roof decking. Exterior features like enclosed gooseneck frame rails, side mounted LP bottles with auto-change, and a sleek 2005 profile enable Hornet Fifth Wheels to maintain our "designed from the inside out" concept in every phase of manufacturing.
