

# *SPRINTER* COPPER CANYON

Travel Trailers and Fifth Wheels  
2007  
by Keystone

Go your own way.

# Go your own way. And Sprinter will get you there.

Introduced as Keystone RV's first product line in 1996, Sprinter's goals have always been ambitious: give our customers an exceptional RV experience from a unique RV company.

To achieve success, our team understands the importance of listening to the customers who daily use the product, taking their suggestions and making those recommendations the foundation of Sprinter design.

Consumer-driven design distinguishes Sprinter from other brands. First and foremost, we offer storage, storage and more storage! From Sprinter's original space-maker fresh water system to the abundant amount of interior cabinet space, Sprinters have more interior and exterior storage than ANY other brand in its class.

We also focus our attention on Sprinter's residential comforts and interior styling. We incorporate the latest home trends with solid-wood, raised-panel cathedral cabinet doors, high-arched metal faucets and plush camelback sofas. In looks and design, Sprinter provides American beauty in a true second home.

Our team maintains the vision to build the Sprinter with a customer's budget in mind. We direct dollars typically spent on large advertising campaigns, executive benefits and costly office complexes into our product. We assure our customers that every dollar they spend is invested directly into their Sprinter. We also ensure quality by drawing our workforce from a community which still values exceptional craftsmanship.

The Sprinter trademark is associated with excellence, luxury and superior customer satisfaction. Welcome to the Sprinter family where quality, comfort and function meet.

Sprinter Travel Trailer

Copper Canyon Fifth Wheels  
and Travel Trailers

Convenient cabinets and storage areas provide ample room for just about everything you'll ever need along the way.

# In the lap of luxury.

Sprinter offers a wealth of high quality features usually found in much higher priced travel trailers and fifth wheels. Luxurious standard features include rich **Endura™ hardwood cabinets**, **home theater Surroundsound® systems** (standard on Copper Canyon), a brilliantly conceived **slide-out pantry** and generous storage capacity. Our Copper Canyon fifth wheel now offers lots of additional headroom: **6'2" in slide-outs and 6'5" in the master bedroom.**

We've thought of everything so you don't have to.

Conveniently tucked under the counter the slide-out pantry increases storage and keeps groceries in place during travel.

Home theater system not only creates theater like sounds but also plays DVD's MP3's CD's and your local radio station.

A laundry chute even whisks away your clothes to a laundry basket in the basement storage.

EZ slide storage tray under the dinette makes it easy to access items under the dinette.

The porcelain toilet with foot flush creates a residential feel and offers hands free operation.

Sprinter's ample storage includes a unique "Store-More" pass-through storage door.

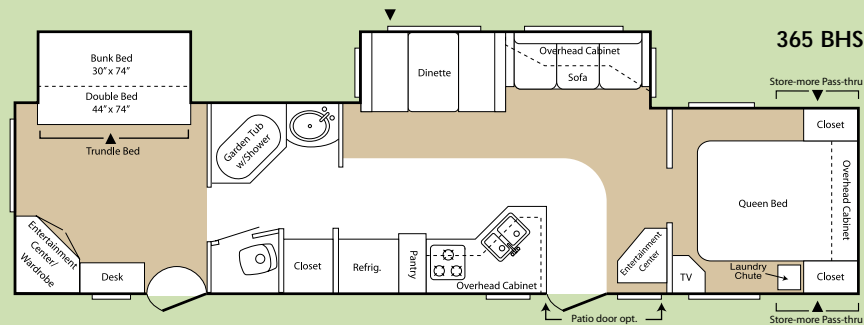

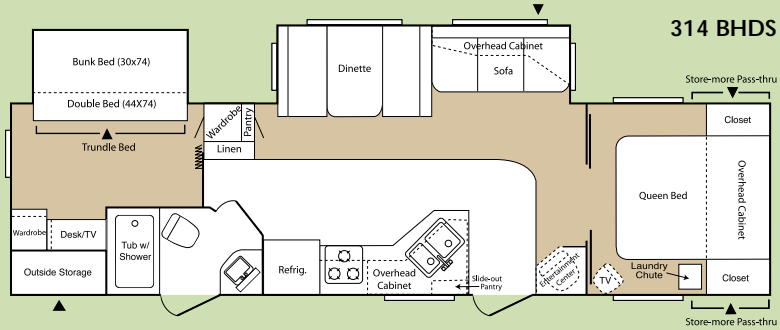

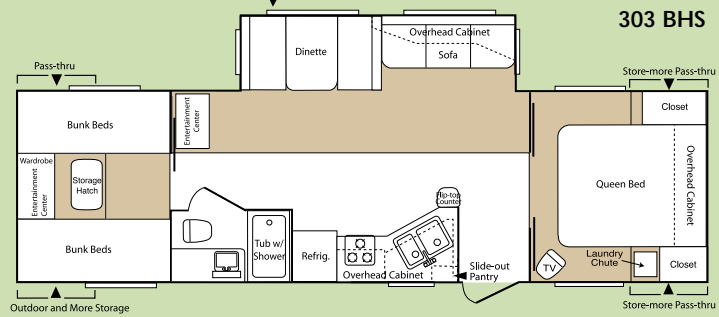

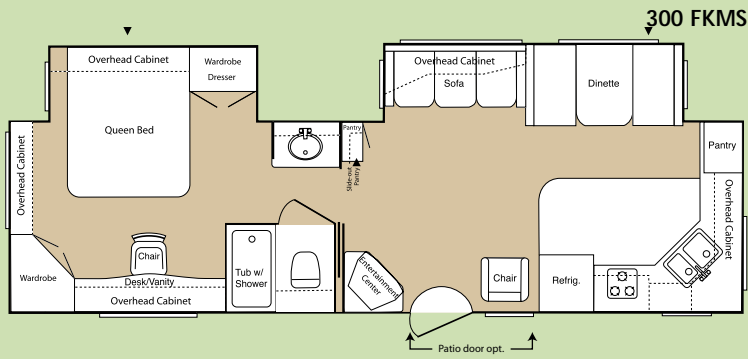

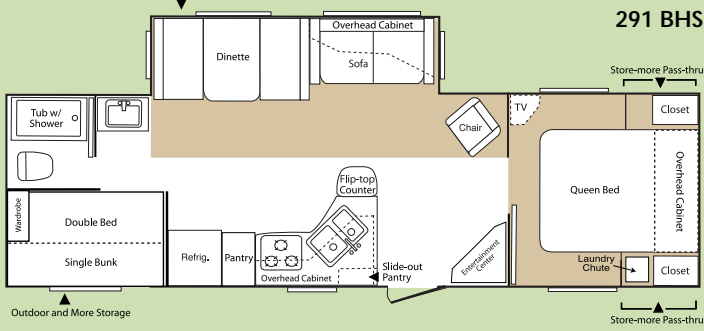

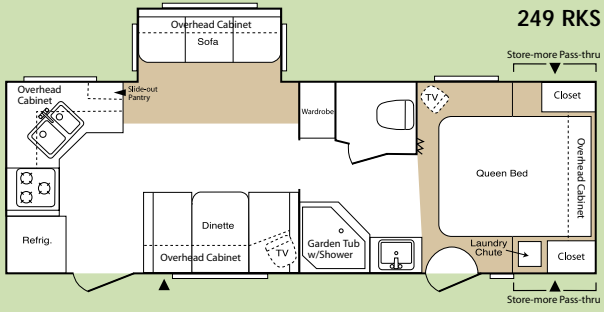

EZ Lube axles simplify lubrication

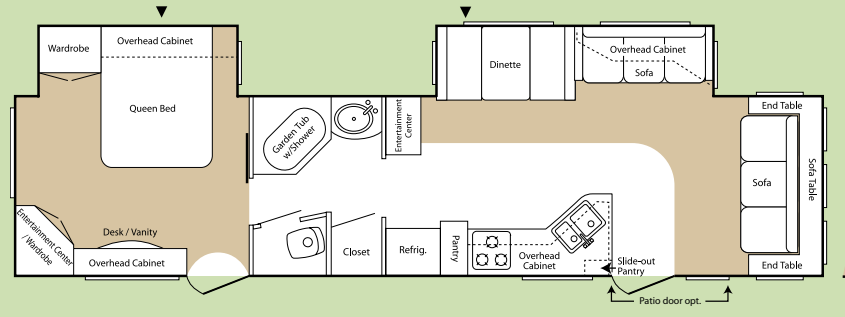

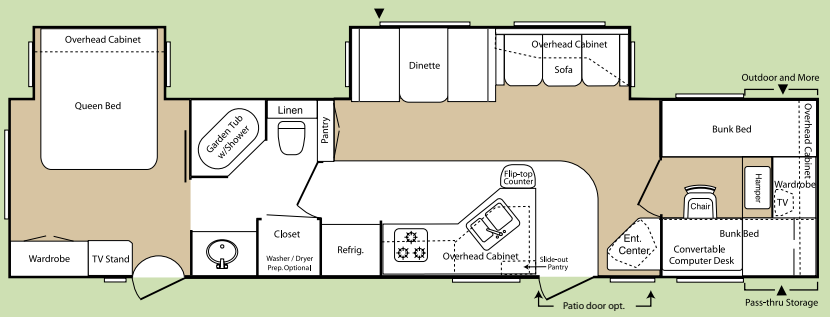

Of the numerous amenities in A Sprinter kitchen, the pull-out pantry, deep 60/40 sinks, cathedral-raised solid-wood cabinets, 21" ovens and ample storage for cooking and entertaining needs are the ones consumers love most.

# Copper Canyon Mid-Profile Fifth Wheels

# Copper Canyon High-Profile Fifth Wheels

# Robust, secure, reliable.

Anyone interested in a Sprinter should take the ultimate inspection tour. Go underneath a Sprinter, look on top, go inside every nook and cranny. You will see for yourself just how well constructed Sprinter travel trailers and fifth wheels really are. We use the best construction methods and highest quality components in the industry. We adhere to strict manufacturing standards and employ the finest craftsmen.

# The choice is yours.

Relax, we make it easy.

Life may be full of difficult choices but choosing a Sprinter will not be one of them. With 26 beautiful floor plans you have plenty of options to find the customized fit for you and your family. No matter which one you ultimately choose, be assured it was created for tasteful beauty, easy maintenance, maximum convenience and your utmost living enjoyment.

Proving you cannot have too much of a good thing, Sprinter offers two distinct versions from which to choose. Our time-honored Sprinter Series built with conventional wood frame, styled with an aluminum exterior, creates one of the finest values in the recreational vehicle market today. It is perfect for extended weekend exploration.

For those who like to distance themselves from home for longer periods at a time, the all-new Copper Canyon Series features upgraded residential amenities, unprecedented style and fully welded aluminum frames with fiberglass sidewalls.

Four adults dine comfortably in our stylish 45" wide dinettes. The increased height (6' 3") in the slide-room in all fifth wheels provides additional comfort and ease of movement. Sprinter's large entertainment center accommodates up to a 25" TV in most floorplans.
